Legality of Abortion

I believe abortion is part of comprehensive reproductive health care and support the right to choose abortion as fundamental to each person's autonomy.

Agree

I support the enshrinement of the fundamental right to abortion in law and oppose legislation that makes abortion and other reproductive health services harder to access.

Agree

Policies That Affect Access to Abortion

Insurance coverage for abortion services, including government-provided health insurance, Medicaid, Medicare, etc.

Support

Laws that prevent local governments and jurisdictions from providing funding for abortion services to indigent residents

Oppose

Comments: I believe indigent people should have access to funding to make sound decisions on their reproductive rights if they can't afford it themselves we must remember that some situations can be a health crisis for individuals

NARAL Pro-Choice Texas

Houston Candidate Questionnaire On Reproductive Rights

State law that requires doctors to provide information unsupported by medical and scientific evidence, such as the claim included in the “Women’s Right to Know” Act that asserts that abortion increases the risk of breast cancer

Oppose

Comments: I would like women and/ or families to be well informed about potential medical conditions supported by evidence

State law that that imposes a medically unnecessary 24-hour waiting period on abortion patients, necessitating at least two separate visits to the same provider

Oppose

Policies that require pregnant minors to obtain parental consent or seek a judicial bypass in order to receive an abortion

Support

Comments: This depends on the age of the minor and this will also depend on the support of the parents

Policies, including local clinic safety ordinances, that protect patients, doctors, and other health care professionals at reproductive health clinics from violence, harassment, threats, and intimidation

Support

Proposals ensuring that “crisis pregnancy centers” (CPCs, fake women’s health clinics, of which there are more than 10 in Houston) do not mislead or intimidate people facing unintended pregnancy by misrepresenting themselves as sources of unbiased health information, and local ordinances that limit false advertising and other deceptive practices of CPCs

Support

Non-coercive, comprehensive access to the full range of reproductive health care, including abortion, for incarcerated people

Support

Local funding for organizations that provide logistical assistance, doula services, and other wrap-around support for people seeking abortion care

Support

Policies That Support Access to Comprehensive Reproductive Health Care and Support Healthy Communities

State law that prevents local government from partnering with abortion providers or their affiliates (such as, but not only, Planned Parenthood) for services like sexual health education, family planning initiatives and STI prevention

Oppose

Proposals that allow certain individuals or corporations (such as HMOs, pharmacists, and health insurance companies) to refuse to provide specific reproductive health services, information, or referrals, including under claim of "religious liberty"

Oppose

Emergency contraception (EC) should be accessible to all people – including ER patients and people who seek services because of rape or sexual assault. (EC is an FDA-approved contraceptive, taken after sex, which greatly reduces the likelihood of pregnancy. EC is not abortion and cannot harm a pregnancy if one is already established.)

Agree

All Houston workers should have a living wage of at least \$15 per hour.

Agree

All employers, including the City of Houston, should provide paid family and medical leave so that people aren't forced to make a choice between earning an income and caring for themselves and their families.

Agree

Pregnant individuals should be able to work, be protected from discrimination, and be provided with any reasonable accommodations they need.

Agree

NARAL Pro-Choice Texas

Houston Candidate Questionnaire On Reproductive Rights

The City of Houston should protect its employees, public housing residents, and HHA voucher recipients from discrimination based on gender identity and reproductive decisions.

Agree

The City of Houston has a role to play in helping school districts provide age-appropriate and medically accurate sexual health education that is not limited to teaching only abstinence.

Agree

Undocumented people should be able to access reproductive health care without fear of being reported or shamed. The City of Houston should implement programs to help undocumented residents feel safe when seeking these services, such as municipal identification and cultural competency and “Know Your Rights” trainings for healthcare providers and clinic staff.

Agree

Municipal courts should abolish cash bail such that people do not face pre-trial incarceration — and, therefore, the risk of losing their homes, jobs, and ability to care for their families — for being too poor to post bond.

Agree

How will that impact your service if elected to office? Do you intend to proactively seek out opportunities to champion action for reproductive rights, including by drafting and sponsoring creative items to increase gender equity and access to reproductive health for all Houston residents?

Yes! By holding town halls to get the ideals from the public in terms of what ordinance they like to see pass concerning healthcare and equal access to healthcare services

How do you feel about preemption of local government on progressive issues? Specifically, are you willing to champion, support, and vote for legislation that may ultimately be preempted if you feel it's the right thing to do, including on issues of abortion access? Will you, subsequent to passage of progressive legislation, work to stop potential preemption, including actively opposing state legislative overreach and providing resources to defend city laws in court?

Yes! and with the help of the people my administration will only act on the will of the people per the declaration of independence

Tell us about a time when you stood up for reproductive rights and gender equity. Have you ever been publicly outspoken about your values in supporting access to abortion? Have you ever had conversation with colleagues, coworkers or other community members, published an opinion piece in the paper, attended a public event in support of reproductive rights, etc?

I support freedom and equality by upholding the United State Constitution which means under my administration all people rights will be protected and voices will be heard
